---

## Technical Skills & Expertise

- **Certifications:** CompTIA Network+ & Security+, AWS Certified Cloud Practitioner, AWS AI Practitioner
- **Cloud & Enterprise Systems:** Strong foundational knowledge of cloud platforms (AWS) with exposure to enterprise solutions and integration practices
- **Consulting & Implementation:** Experience supporting technology-driven business transformation and industry certification programs, including curriculum development and e-learning solutions
- **Training & Enablement:** Skilled in designing and delivering technical training programs for software systems and IT applications
- **Business & Technical Analysis:** Proficient in translating business requirements into effective solutions; experienced in project lifecycle support and configuration documentation
- **Collaboration & Communication:** Demonstrated ability to coordinate with cross-functional teams, guide project timelines, and communicate effectively with stakeholders

## Professional Experience

### Technology Instructor

Northside ISD | Pearsall ISD | 2014 – Present

- Designed and implemented technology and cybersecurity curriculum aligned with CompTIA certifications (Security+, Network+, Tech+), certifying students in real-world, industry-recognized credentials.
- Led classroom-based certification implementation initiatives, supporting students in successfully earning 300+ Adobe certifications, 60+ Autodesk Revit certifications, and 100+ CompTIA and IT credentials.
- Developed over 230 professional-grade software training videos, streamlining technology instruction and enabling scalable, on-demand learning across the district.
- Collaborated with staff and district leadership to align technology instruction with evolving business and workforce needs, bridging technical content with strategic educational outcomes.
- Demonstrated a commitment to continuous improvement through self-paced upskilling on platforms like LinkedIn Learning and Udemy, adopting new enterprise technologies and tools to improve training delivery and learning outcomes.

## Senior Intelligence Analyst / Military Consultant

Six3 Systems | 2011 – 2013

- Supported U.S. Special Forces in Afghanistan as a forward-deployed intelligence consultant, providing real-time operational analysis and strategic decision support.
- Created and delivered daily high-stakes briefings for cross-functional teams, including executive-level leadership.
- Developed geospatial and mission-critical intelligence products, improving operational planning and risk mitigation.
- Integrated and analyzed HUMINT and SIGINT data, transforming complex data into actionable insights to guide operational success.

## Senior Intelligence Analyst

U.S. Army | 2008 – 2011

- Trained and led a 15-person intelligence team, producing over 1,200 validated intelligence reports with a 95% accuracy rate.
- Delivered executive-level briefings to NSA and military leadership, enhancing situational awareness and mission readiness.
- Led counter-narcotics and counter-human trafficking intelligence operations, coordinating across agencies and stakeholders.

## Assistant Section Chief

United States Marine Corps | 2001 – 2007

- Promoted to leadership during Operation Iraqi Freedom II; led an eight-person artillery section in complex combat scenarios.
- Provided technical and tactical training to personnel, developing future leaders and maintaining high performance standards.

## Education & Certifications

### Education

- Master of Arts in IT Management | Webster University
- Bachelor's of Art in Web Design | Tennessee Technological University

### Certifications & Achievements

- AWS Security Specialty
- AWS Solutions Architect - Associate
- AWS AI Practitioner, AWS Cloud Practitioner
